How do you implement co-teaching

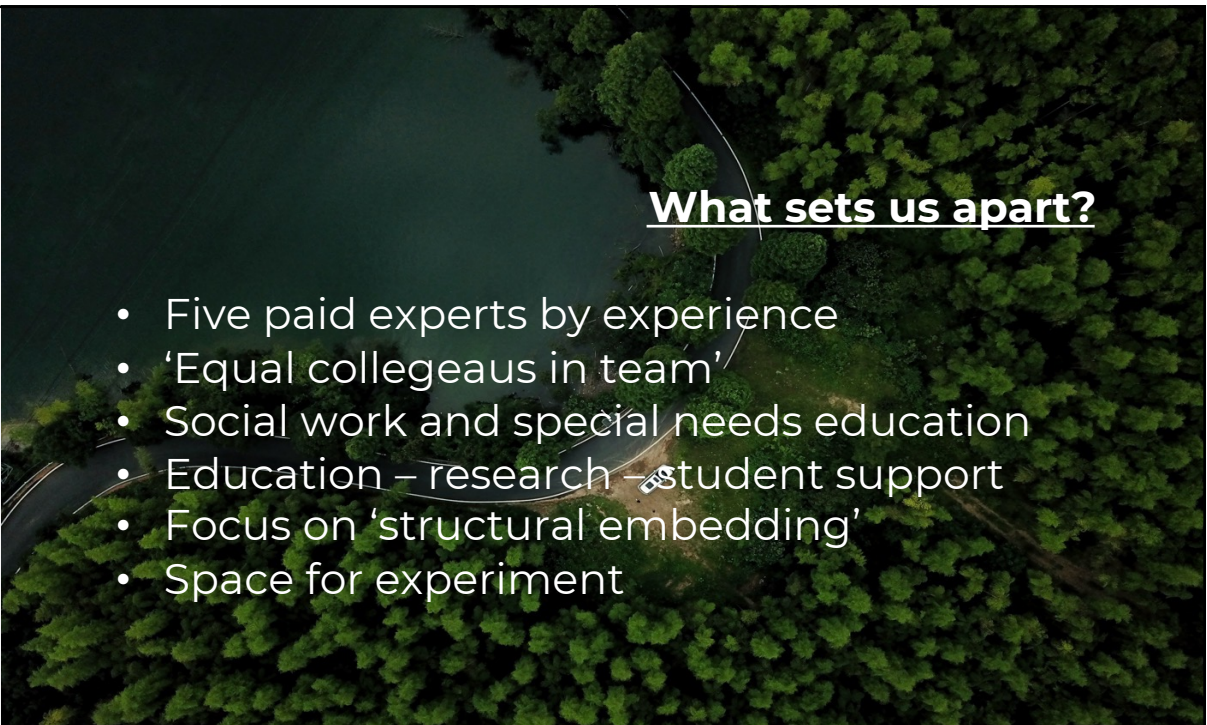

© Tijs Van Steenberghe

- Process to build relations
 - Introducing the topic
 - Taking time
 - Connecting as humans
 - Guided by expert
- Paid expert by experience
- Full course development
- Research and support
- Space for 'uniqueness'

2

What sets us apart?

- Five paid experts by experience
- 'Equal colleagues in team'
- Social work and special needs education
- Education – research – student support
- Focus on 'structural embedding'
- Space for experiment

3

How have we been sharing?

- Start of local group of universities and universities of applied sciences
- Internal startup of intervision
- Interaction research – education – student support
- Formal and informal moments
- Being there
- Mutual trust

4

What is required to make it successful?

- Support and trust from coördination and staff
- 'Believers' and pioneers
- Start small and build 'succes'
- It takes '2-3 years'
 - Relation building
 - Content building
 - Shaping the pedagogical space
- Belonging and stigma
- Safe space
- Shared goal

5

How is the relationship between EbEs and staff and students?

- Good
- :)
